ABOUT COMPANY

To be the first in factory design and construction services that meet international standards with regard to safety, speed and environmental friendliness.

TG Steel Builder (Thailand) Co.,Ltd. is a joint venture between Thai and Chinese investors who have been in the construction business for over 20 years. We are pleased to serve you by giving advice, design, construction as well as steel structure fabrication which is manufactured by our factory. This therefore, makes the structure stronger in order to meet engineering criteria and even save construction time.

We not only aim to develop modern steel construction models in engineering, design and manufacturing technically, but also emphasize quick and durable installation, structural work that is prepared from the factory. This makes it possible to decrease on-site work and manual labour, as a result the construction goes rapidly. In addition, the structural work can help save time and reduce construction cost to meet maximum customer satisfaction.

CEO STATEMENT

Mr. Vasin Tratakunchai

Mr. Vasin has been in the steel and construction industry for more than 30 years and has held various positions in many corporate organizations, both domestically and internationally, especially in China, where there is a high level of competition in construction technology. He foresees the significance of partnership and understands the customer's requirement excellently.

Mr. Jian Feng Bai

Mr. Jian Feng Bai is running leading construction business from China. He is also a mainstay for business expansion in the global market. At present, there are more than 6 overseas production plants. Mr. Jieng Fengpai has also revolutionize the organization to use more technology in order to avoid the competition that is getting ascendant every moment.

COMPANY HISTORY

Gathering of experienced professionals in Thailand's steel industry, who understand the context and keep up with market changes, combine with business partners who are leaders in constructive innovation with lots of experience in prefabricated steel structures from various modern architectures in the People's Republic of China. Hence, this is the beginning of a new era of prefabricated steel structure of industrialization in Thailand. TG Steel Builder (Thailand) Co.,Ltd. is ready to provide construction services with a comprehensive prefabricated steel structure that is the new standard future construction industry.

TG Steel Builder (Thailand) Co.,Ltd. is ready to be one of the main strategies that help invest in all businesses and industries. We not only assist in moving forward at full capacity as well as achieve plans and growth targets under time conditions, but accomplish efficient investment by providing services from the beginning of planning, guidance, design and construction. Prefabricated steel structures that are outstanding in terms of strength and save construction time.

Apart from providing a full range of services, TG Steel Builder (Thailand) Co.,Ltd. has a goal and commitment to develop modern steel construction models in terms of engineering, design and manufacturing and faster installation, as well as meet engineering standards, strength and durability to deliver qualitative construction experience and maximum customer satisfaction.

MISSION & VISION

VISION

TG Steel Builder is committed to being number one. One-stop service in design and construction factories that meet international standards with regard to safety, speed and environmental friendliness.

TG Steel Builder needs to establish quality standards on construction by using technology to help reduce the number of frontline workers, shorten construction time, and reduce unnecessary consumables with no debris left in the construction site, which helps to protect the environment at the same time.

The structure of the future supports precise, fast, strong, durable and worthwhile investment strategies.

MISSION

TG Steel Builder develops human resources and uses modern technology to reduce construction costs and deliver quality work quickly which a focus on customer satisfaction at its highest.

We'll identify your needs and enhance your business growth.

ABOUT FACTORY

*We Are Providing New
Innovation Machines
For Best Results. and
Team of skilled
technicians*

Our factory is built with the environment in mind, along with a modern security system. In addition, our machines are laid out into categories. We not only work in systematic harmony, but also have space to store various materials and raw materials proportionally. We, besides, have an experienced team who have been trained using machinery proficiently and has worked in this field for a long time.

We do provide training courses for employees in order to develop their skills and drive them to be enthusiastic about their duties frequently. There is a systematic work system to allocate duties and time to prevent the technician team from becoming fatigued which may cause mistakes or accidents.

THANK YOU :)

"We build your DREAM" TG Steel Builder Co., Ltd. has been using the spirit of wanting to make customers' "dreams" come true for the past 20 years of service and always adapting concepts according to the changing era. Nonetheless, according to emerging innovations all along, we have studied and developed work modifications. Production has always kept pace with that change. This makes our work even faster, as a result, the construction costs of customers and reduced over construction in general. We are delighted with the delivery of our work and will continue to be a part of our customers' success.

HAPPY ENDING :)
